Season One

Congratulations to all participants today on qualifying for the first MCA Championship to be held since 2007. It's been a fun season and personally I enjoy having a points race that runs over the summer as it always gives you something to be playing toward.

There certainly have been some challenges along the way, but getting a four-tournament series implement in the first year is quite an accomplishment. From what we've learned, I we'll offer an even stronger series in 2014. I think we've built a great foundational structure, so with a few tweaks, next year we can work more on presentation and marketing. And yes, I expect to grow both in membership and participation for 2014.

I would like to thank everyone that has participated this year. Everyone has shown a great deal of flexibility and seem to embrace the concept.

The Rundown

There are three events today – the Pro Championship, the Gold Division Championship and a Six-Ball Championship. The Pro and Gold events are single-elimination. The Six-Ball event will take the top finishers from two qualifying matches. All players are in the Six-Ball event in order to guarantee all players at least two-games today.

The points races in both the Pro and Gold Divisions are both active. So, it's a wide-open day from that standpoint. The winner of each event today will get an award and also the points winners will receive the travelling MCA trophies.

We do have two players in both the Gold and Pro Brackets so our schedule may have to flex if that creates conflicts. As it stands now, the schedule is built to get through the event as quickly as possible. No games are scheduled to be double-banked.

Lunch

There is a one hour lunch break provided for all players (assuming the schedule holds). Just to the east there are several places to grab lunch including but not limited to Applebee's, Bob Evans, Ruby Tuesday, Sonic, Buffalo Wild Wings, Jimmy John's and Long John Silver's. See the map on the following page.
